REGION II  
HABITAT DIVISION

| Species | Date(s) Observed | Spawning | Rearing | Migration |
|---------|------------------|----------|---------|-----------|
| Coho    | July 12, 1985    |          | X       |           |
|         |                  |          |         |           |
|         |                  |          |         |           |
|         |                  |          |         |           |

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

minnow buckets with less than optimum bait  
caught 3 coho juveniles; char are more than likely  
rearing in this stream also; habitat similar to other  
streams in this area where juvenile char were captured.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
